

2019/2020

ICONIC *by* **RAVAK**[®]

OUR LIVES CONSIST OF COUNTLESS BIG AND SMALL DECISIONS.

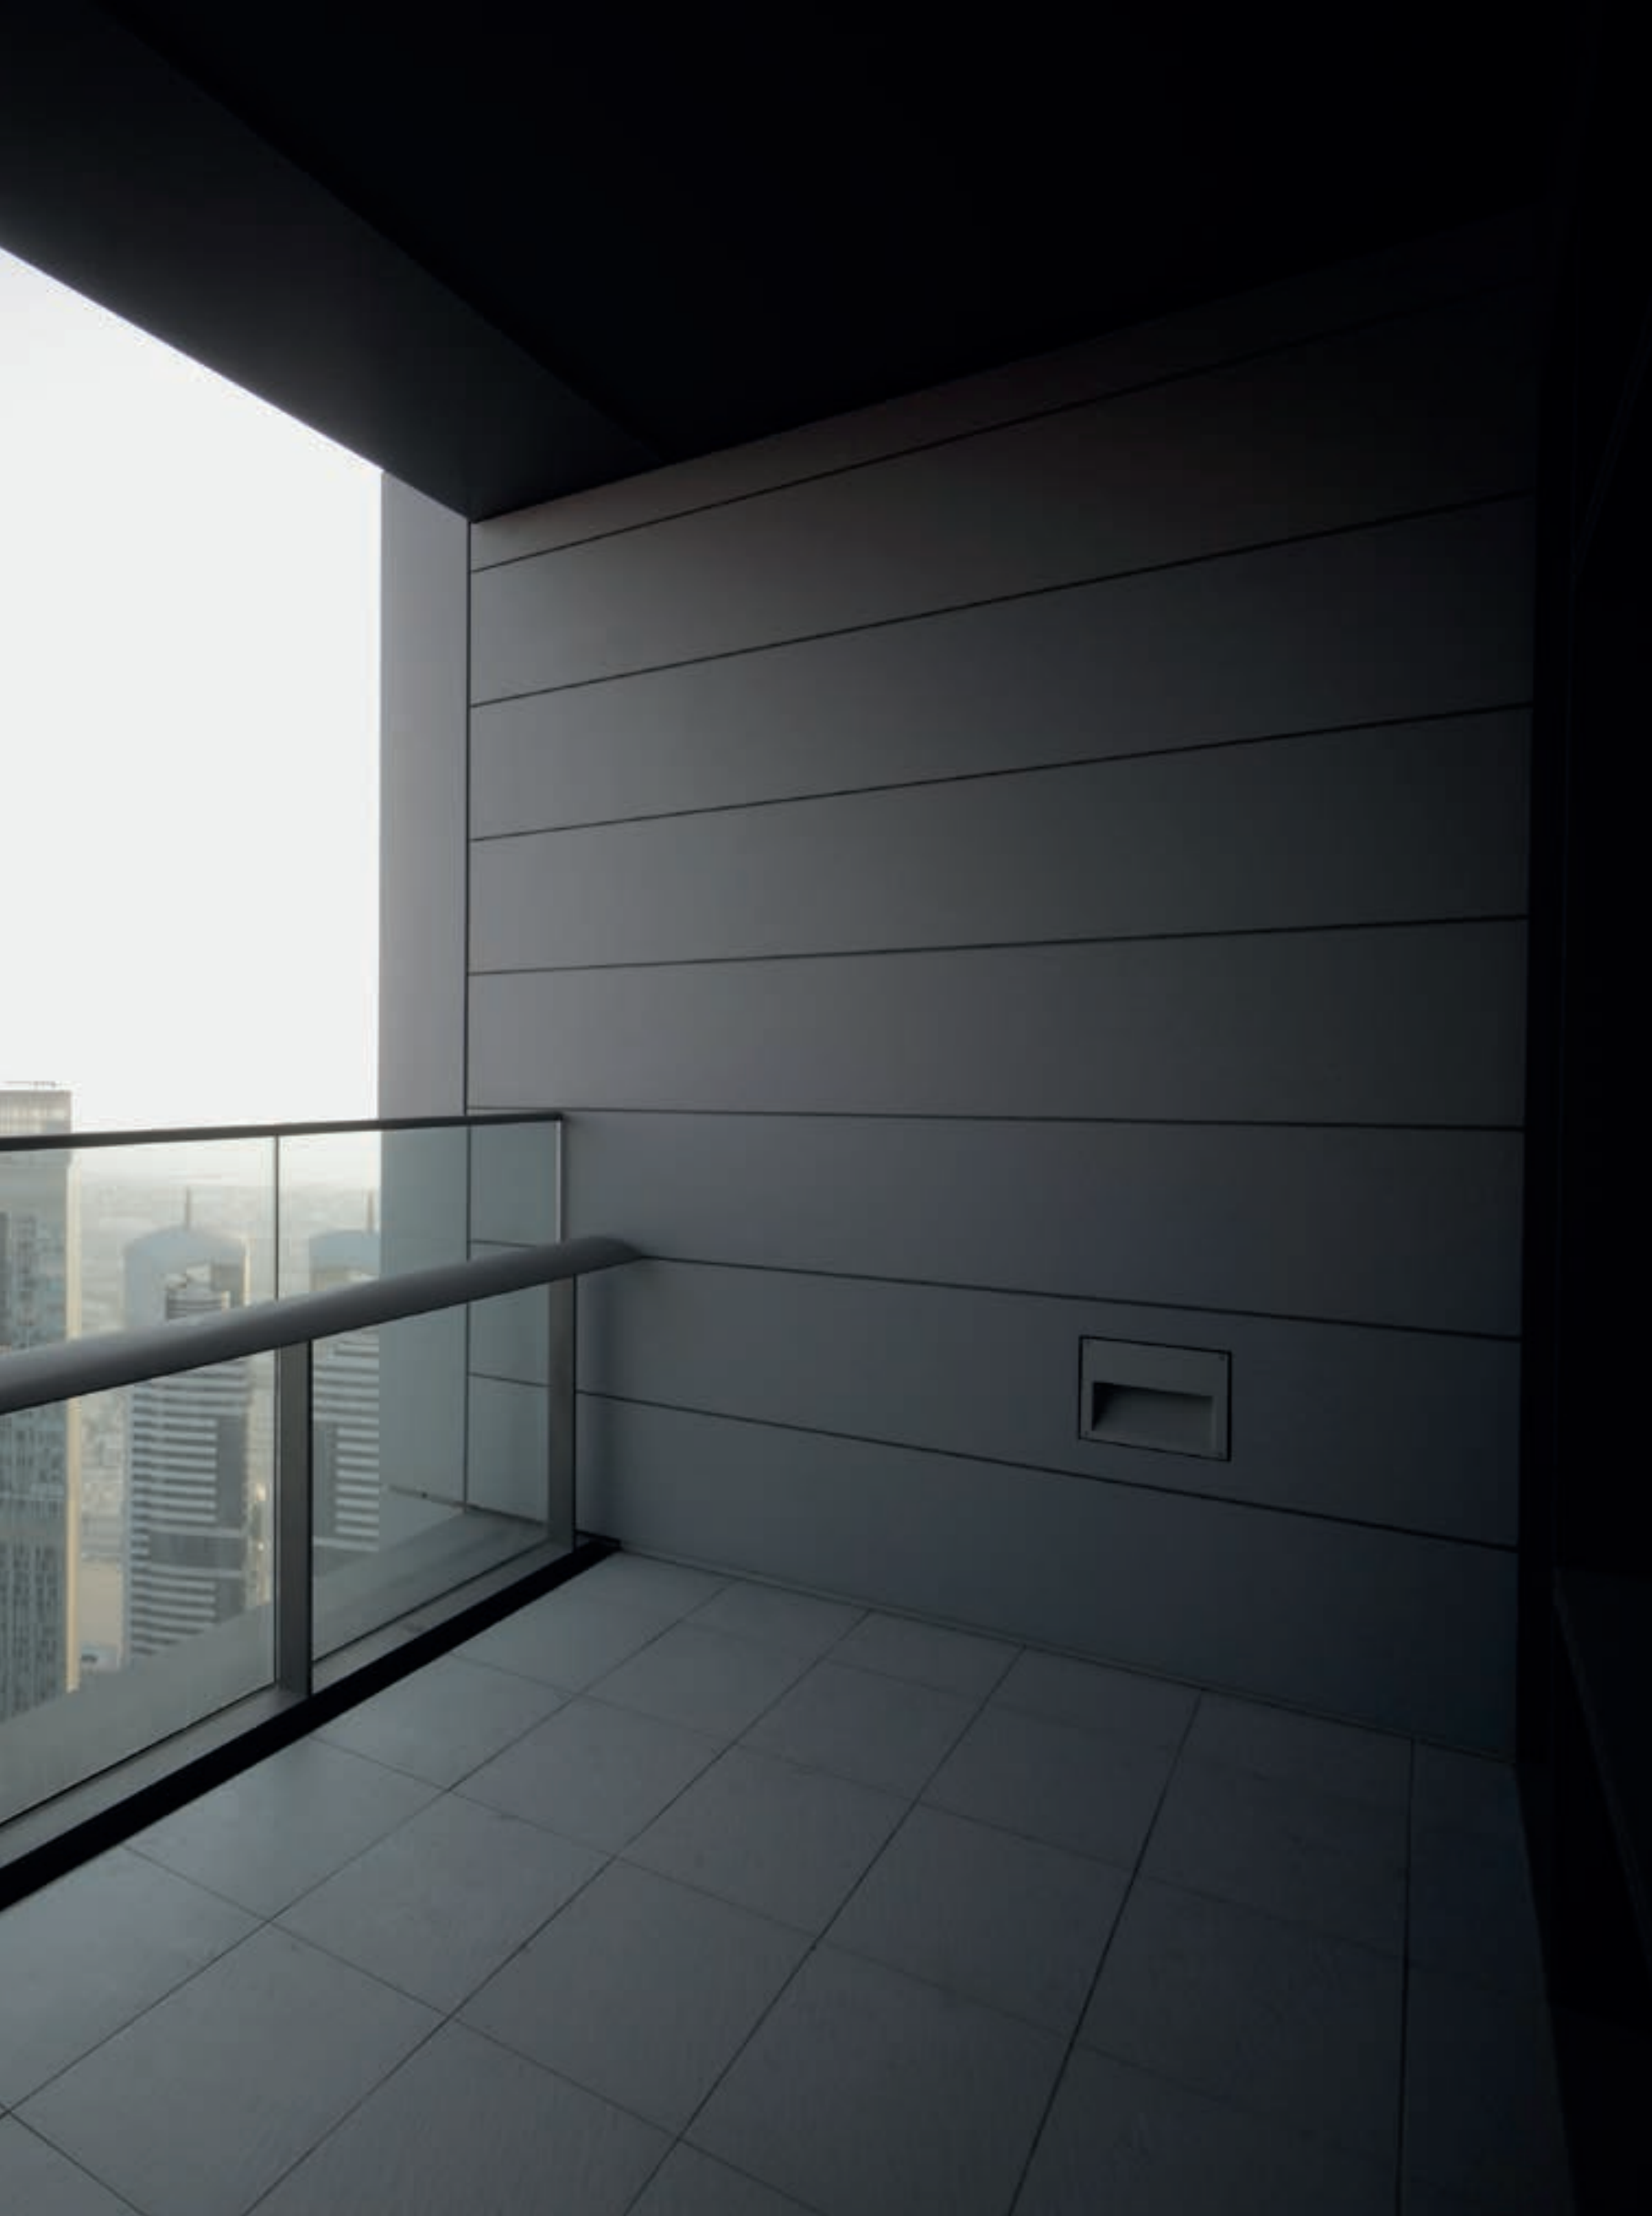

Every day, you choose between a compromise and a fulfilled wish, between the average and the original, between what everyone has and what is only yours. You can settle for a mainstream taste, or give preference to the uniqueness of our solution. Turn the pages and meet the products that represent our current self. All that we create with heart, innovative approach and precise craftsmanship.

PEOPLE DIVIDED THEIR WORLD INTO COUNTRIES AND STATES, PLANNED THEIR BORDERS AND DETERMINED WHERE THINGS END AND BEGIN. WATER, HOWEVER, IS AN ELEMENT WHICH CANNOT BE CONFINED.

Achieving harmony with water and finding ways to make the best use of its cleansing power is our mission. Like water, our products have no boundaries; thus you can encounter them in more than fifty world countries, in most famous hotels, in companies and in private residences. Simply anywhere, where customers appreciate a time-tested brand, quality and, above all, original design.

design nos

Kryštof Nosál

Founder of the Nosal Design studio. Top Czech designer focused on product design; he adheres to the rule of simple solutions with a clear idea behind them. His inventiveness can be found, for instance, in Narex products, he is the co-author of an Electrolux washing machine for men and many of the most popular RAVAK bathroom products. A regular participant in prestigious design competitions, he is a Czech Grand Design nominee and winner of the Good Design, Red Dot, iF, EDIDA and Top Design awards.

al[©]

*„I try to achieve maximum effect using simple means.
Simplifying and removing all that is unnecessary
creates a product that we feel more intensely.“*

NEW Solo

Solo

Solo for pure shapes. The rectangular base of the bath adds visual stability while the oval top increases the feeling of peace and relaxation.

Design by Kryštof Nosál

NEW Solo

A natural solitaire, Solo attracts attention by its independence of space and minimalist expression. Perfect for two people to meditate quietly.

Stylishly matched cast marble washbasins offer an innovative combination of classic shapes and generous space. Suitable for table top positioning. Solo washbasin.

Washbasins Moon

The basic geometric shape of a circle and its modifications in five forms. Represents the most natural solution for every bathroom.

„The intentionally ordinary shapes of this series of table-top washbasins predestines them to universal use.”
Design by Kryštof Nosál

Circular and oval shapes in the bathroom serve as the ideal counterbalance to the austerity of other right-angled elements.

They provide their users with exceptional freedom in furnishing their interior. They can be variably placed on a table top or embedded in made-to-fit furniture. Similarly, the water taps can be either standing or built-in.

NEW Ceramic Slim

Washbasin

Ceramic Slim O

Exactly defined thin edges for visual lightness. The rounded shape ideally balances the right angles in the bathroom. The Ceramic Slim washbasin.

Washbasin

Ceramic Slim R

It follows the trend of modern straight lines, yet moderating their sharpness, soothing and rounding them. With the thin-walled ceramics, the washbasin exhibits gentle beauty. Ceramic Slim R washbasin.

Formy

01

Formy

For every aspect of your personality.
Subtle transformation of shapes in two forms.

Design by Kryštof Nosál

02

Formy

Formy 01

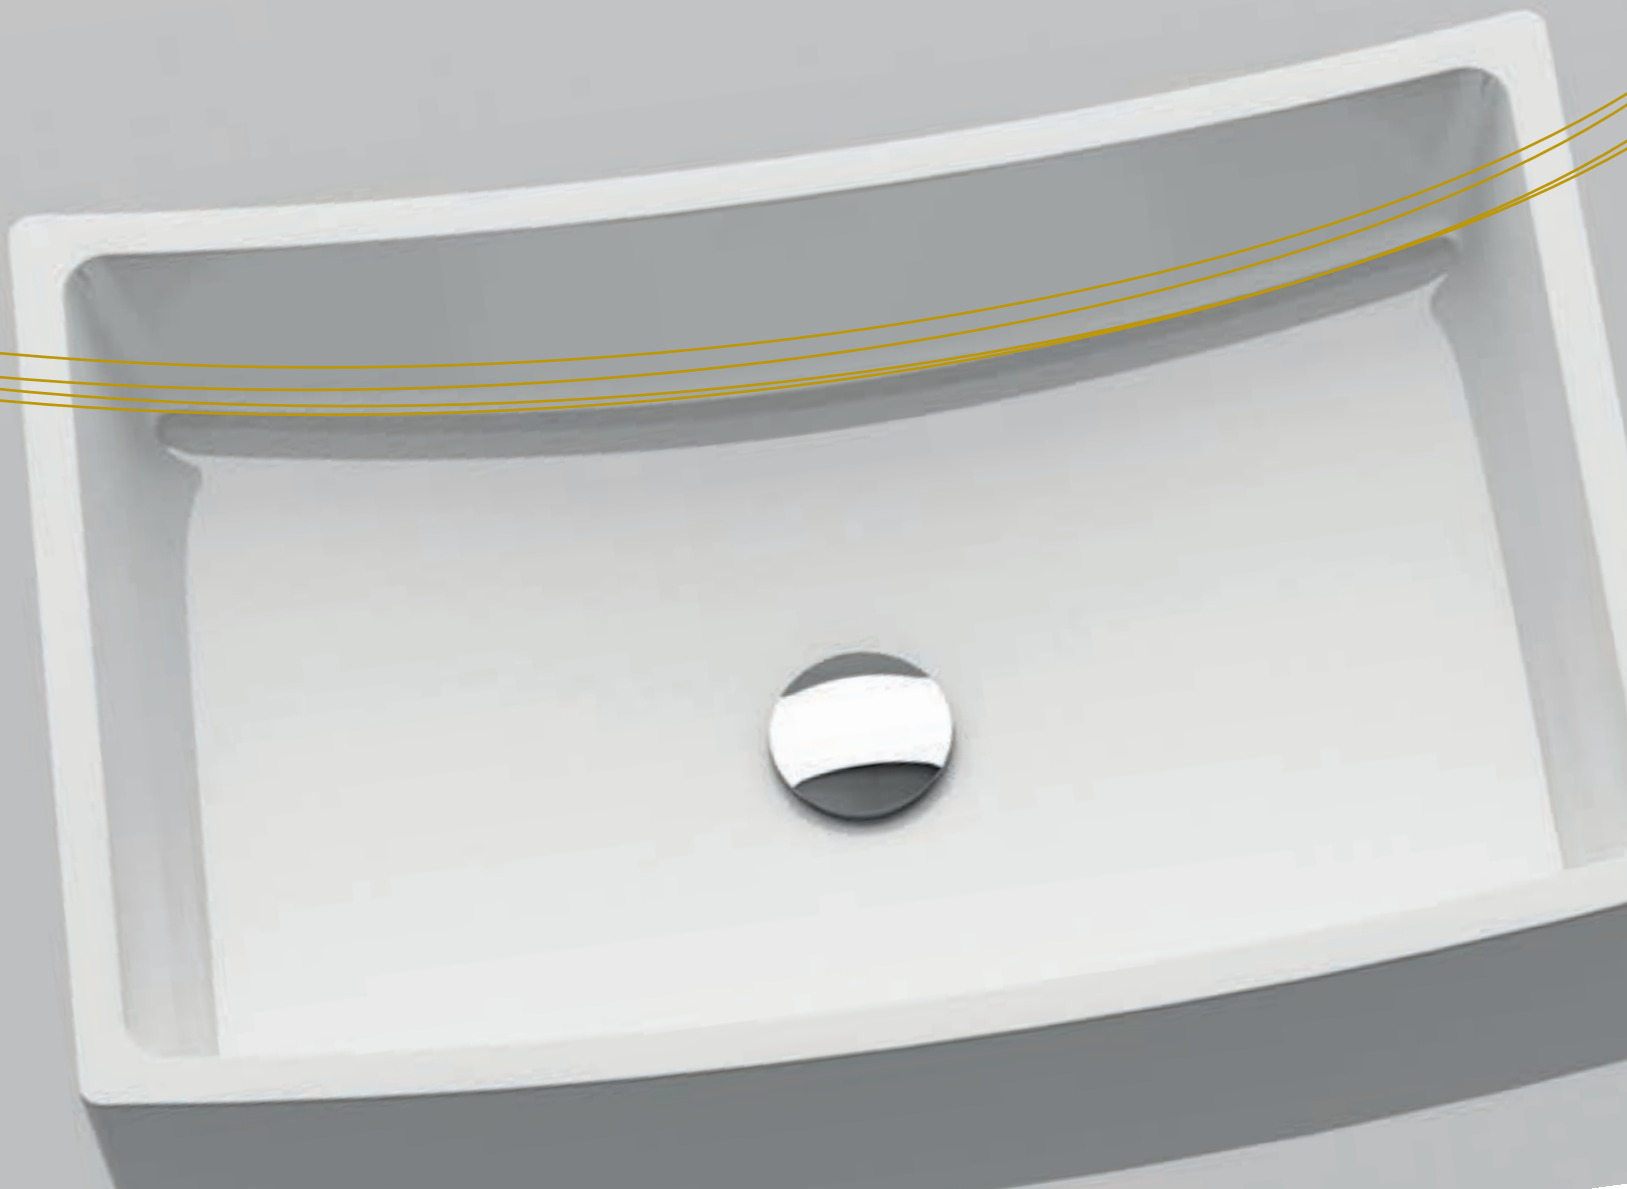

Minimalism in its purest form.

The idea of the Formy concept is built on a new perspective on such traditional products as baths and washbasins.

The classic, expected shape was transformed into two new ones: one puristically clean, the other with gracefully curved lines.

Formy 02

Transformation of lines into rounded curves, creates an emotionally charged form.

Formy

01

Forms 01 concept - bath size 180 x 80 cm or 170 x 75 cm. Basin size 50 x 39cm and 60 x 39cm.

Formy 02 concept - basin and bath with subtly curved shapes. Bath 180 x 80 cm, basin 50 x 41 cm and 60 x 41 cm.

Formy

City a City Slim

Elegant, spacious bath
in comfortable city style.

Its austerity makes it a perfect fit for modern interiors and its discreetness will never grow old.
Ideal combination with waterfall water taps.

City Slim offers a wide variety of side panels in walnut, oak, satin, or pure white.

The deliciously fine edge of the City Slim enhances the decent modesty of this comfortable bathtub suitable for everyday relaxation. Size 180 x 80 cm.

City

The rounded inner shape of the bath brings into the bathroom a pleasant atmosphere. Dimensions 180 x 80 cm.

Freedom O

Free-standing bath Freedom O. Clean design that will catch your eye. Size 169 x 80 cm.

Freedom O

Freedom is a state of mind

Step into a new dimension where you set the rules.
Place the bath in the open space enjoy the best view.
Do not limit yourself. Relax.

In a design set with FM 080.00 floor-mounted water tap.

Freedom O

Floor-mounted bath water tap FM 080.00.

Taps

Freedom O

A design set with
a free-standing bath

The tall slim silhouette of the tap with spout creates a symphony of beauty and utility in the bathroom. The opportunity to mount the water tap anywhere on the floor provides absolute freedom in creating a custom-built bathroom.

LoveStory II

Innovated LoveStory II bath in timeless shape

Love for life

The internal shape of a heart, full of emotion and clean external lines in a purist expression for an unforgettable bath for two.

www.bathtub-lovestory.com

In the world of design, impractical fads will not survive long.
Only sophisticated and user-friendly solutions with added value will prevail.

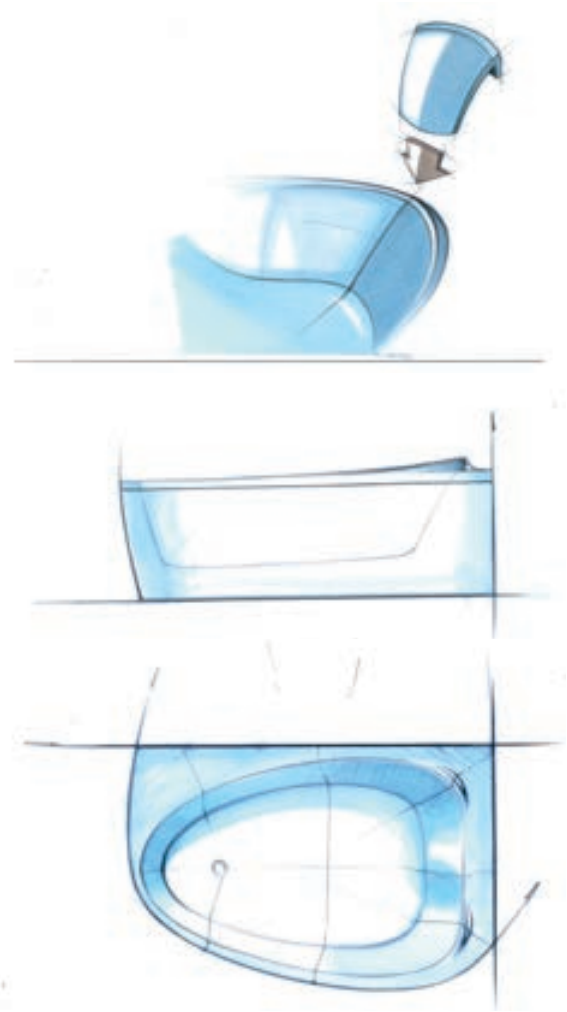

The LoveStory bath has been an icon among baths since 2002.

STORZ

Emotive and pure in expression

„The original LoveStory was created for those who enjoy mutual contact, harmony and comfort when bathing. The innovated LoveStory II keeps to this original idea and shifts the playful and dynamic look of the bath into the context of contemporary architecture. Our goal was to prove that design can be both emotive and pure in expression at the same time,“ says the author of the bath, Achim Storz, the founder of studio Storz.

XXL

Bath for your figure. Extra large and extra comfortable for everyone. Tall persons can stretch easily and those who are smaller are offered **can safely rest their feet on a small step.**

Sink in all the way to your shoulders and enjoy relaxation like never before.

Widest where you need it most - at the elbows

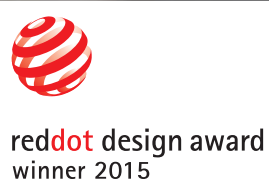

Just submerge your body, settle yourself comfortably in the ergonomically-shaped bath, rest your hands and feet in the most comfortable position and indulge in the warm water.

The large interior space of the bath, ergonomically segmented for perfect comfort of every body part. XXL bath, size 190 x 95 cm.

10°

10°

10°, bathroom concept that meets you halfway.

The principle of the concept is slight rotation of the individual elements by 10°.

The bath, washbasins and water taps give the impression as if they were coming to meet you, adding to comfort and utility. Slight rotation of a standard rectangular bath led to the creation of an asymmetric bath with a large storage area or seat. The rotation of the corner washbasin allows more convenient access and the water tap will meet your hands halfway.

Design by Kryštof Nosál

10°

I like simple things

„I tried to find a simple central idea with a unique drive for the 10° collection. First I took a classic rectangular bath and rotated it slightly at an angle of 10°. I then applied the same principle to the shower trays, washbasins and taps. A simple idea thus unites the whole concept“ says the author, Kryštof Nosál.

Asymmetrical Shower Enclosure

10°

The slightly rotated rectangle on the surface of the tray saves room in the bathroom, offers a comfortable showering space and provides new storage areas inside the shower enclosure all at the same time. Sharp corners in a smaller space are dangerous and troublesome. Therefore, the corner of the 10° shower enclosure is shifted outside of the main zone, leaving more room in the bathroom.

10° Shower Enclosure. Unique solution of the interior space.

Bathroom furniture, the purpose of which is to enhance the aesthetic experience. High quality metal components and deep impregnation for absolute resistance to moisture. Author Kryštof Nosál.

Washbasins and Furniture 10°

The basin's slight rotation by 10° towards the bathroom space provides much greater user comfort in corner washbasins. There is no need to be pressed against the wall; your arms can move freely while washing.

10° basins fit the other components while maintaining a high standard in practical details.

Corner basins 55 and 65 cm

Straight basins 55 and 65 cm

10°

Taps 10°

The taps meet the hand halfway, have an original style and are comfortable to use. Available in three heights – standard, extended and tall for improved comfort.

design nosal[®]

10° bath water tap. Thick chrome plating, ceramic cartridge and a five-year warranty.

10°

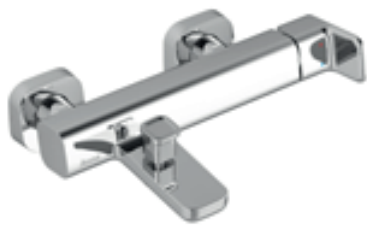

10°

10° bath water tap
Dynamic game of asymmetry

Playing around with the 10° angle creates taps that are interesting to look at, yet significantly increases their utility value.

10° Built-in Tap

Due to its mounting, the fixture is 10° inclined towards the user. Control is thus even more comfortable, the design more forthcoming and your satisfaction greater.

KRYŠTOF NOSÁL, author of the design, Nosal Design studio

10°

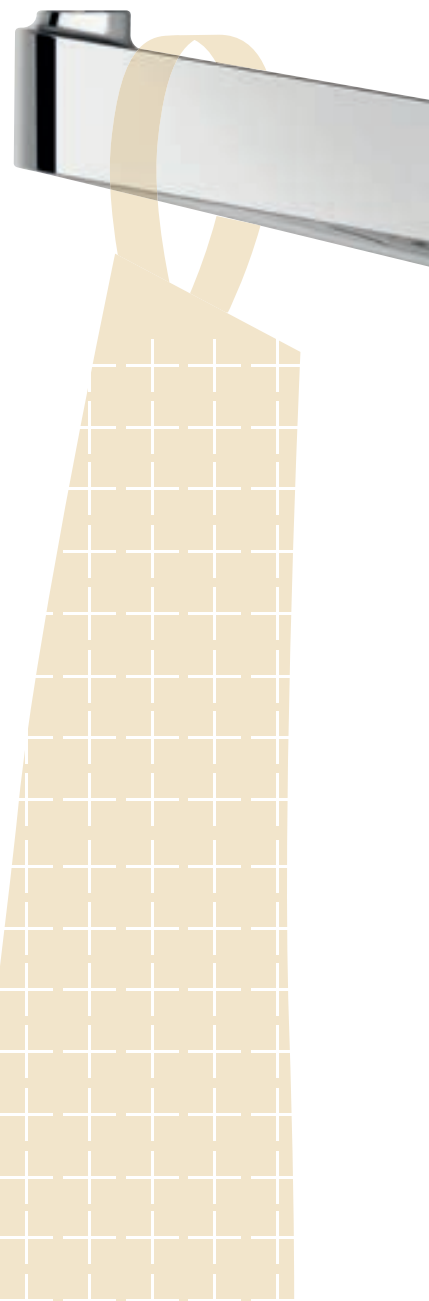

Extras 10°

A Clear Signature

A collection of extras with original designer imprint to complete a 10° bathroom into a comprehensive, functional and aesthetic space.

The design of the bathroom extras is based on the main principle of rotation by 10° and develops it further by using durable materials such as milk glass and metal. www.ravak.com.

Chrome

Chrome

Only perfect elements can create a perfect whole.

The Chrome bathroom concept features a harmonized, matching look down to the very last detail, both in the functionality of its components and their design.

Chrome

Shower Enclosures

Chrome

We used the best materials, processed them at our own production and enhanced them with the original author's design of the Chrome concept.

Chrome shower enclosure is open to possibilities and follows up stylishly on more than fifty other products designed for equipping the entire bathroom.

Shower enclosure model CRV1 + CRV1 sized 100 x 100 cm.

Chrome

Sanitary Ceramics

Toilet and Bidet

Combination of first-rate fired natural materials enriched by the clean design of the Chrome concept.

Uni Chrome bidet represents a pleasant method of personal hygiene. Uni Chrome toilet with RimOff technology ensures absolute cleanliness of the toilet bowl after every flushing. The outer, compact shapes with a hidden system for wall-mounted installation stand guard to prevent dirt from settling.

By being integrated into the wall, the Chrome control buttons do not disrupt the aesthetic unity of the wall and fit perfectly beside the other products from the same concept.

Chrome

Elaborately structured interior space, quality metal components and deep impregnation of the cabinet against moisture.
Dimensions 120 x 49 x 47 cm. Author Kryštof Nosál.

Washbasins and Furniture Chrome

Chrome washbasins are in harmony with the other components while maintaining a high standard in practical details.

The breadth of dimension and type variants will satisfy everyone. Chrome basins range from large double-basins to classic washbasins, as well as small basins intended mostly for the lavatory.

Chrome

Taps Chrome

Uncompromising quality, clean style and design harmony with concept of the same name.

design nosal[®]

Chrome washbasin standing tap. Thick chrome plating, ceramic cartridge and a five-year warranty on the water tap.

Chrome Water Tap

The simplest ideas tend to be the best

„I livened up the minimalist design of the water tap and of the whole concept with oval shapes. These elements are reflected in the entire concept; it is versatile while having a distinctive character.“

KRYŠTOF NOSÁL, author of the design, Nosal Design studio

UNIQUE swivelling SPOUT SYSTEM

Chrome Bath Water Tap

When design and function join together

Bath water tap as a striking centrepiece. In its basic position, the tap does not take up any extra space. Moving the lever switches over to the shower, swinging the spout starts filling the bath.

Extras Chrome

Bathroom extras stylistically unite each bathroom or lavatory. Their simple elegance and quality are a guarantee that they will be worthy companions for an indefinite time.

Shower column with thermostatic tap and adjustable height of the overhead shower in range of 86 – 133 cm from the tap.

Dual Shower System

Termo

Dual shower system with a luxurious thermostatic tap at its heart. Provides a unique experience even in your daily routine.

Optimal width of the shower head complemented by a hand-held shower merge into a unity of practical purpose, style and comfort.

Shower column with thermostatic tap and adjustable height of the overhead shower in range of 86 – 131 cm from the tap.

Dual Shower System

Termo 10°

The ideal start of every day. The raindrops falling from the pleasantly-sized overhead shower will invigorate the entire body while the hand-held shower head will find use in almost any situation. The foundation of the entire solution is the luxurious thermostatic water tap from the 10° concept.

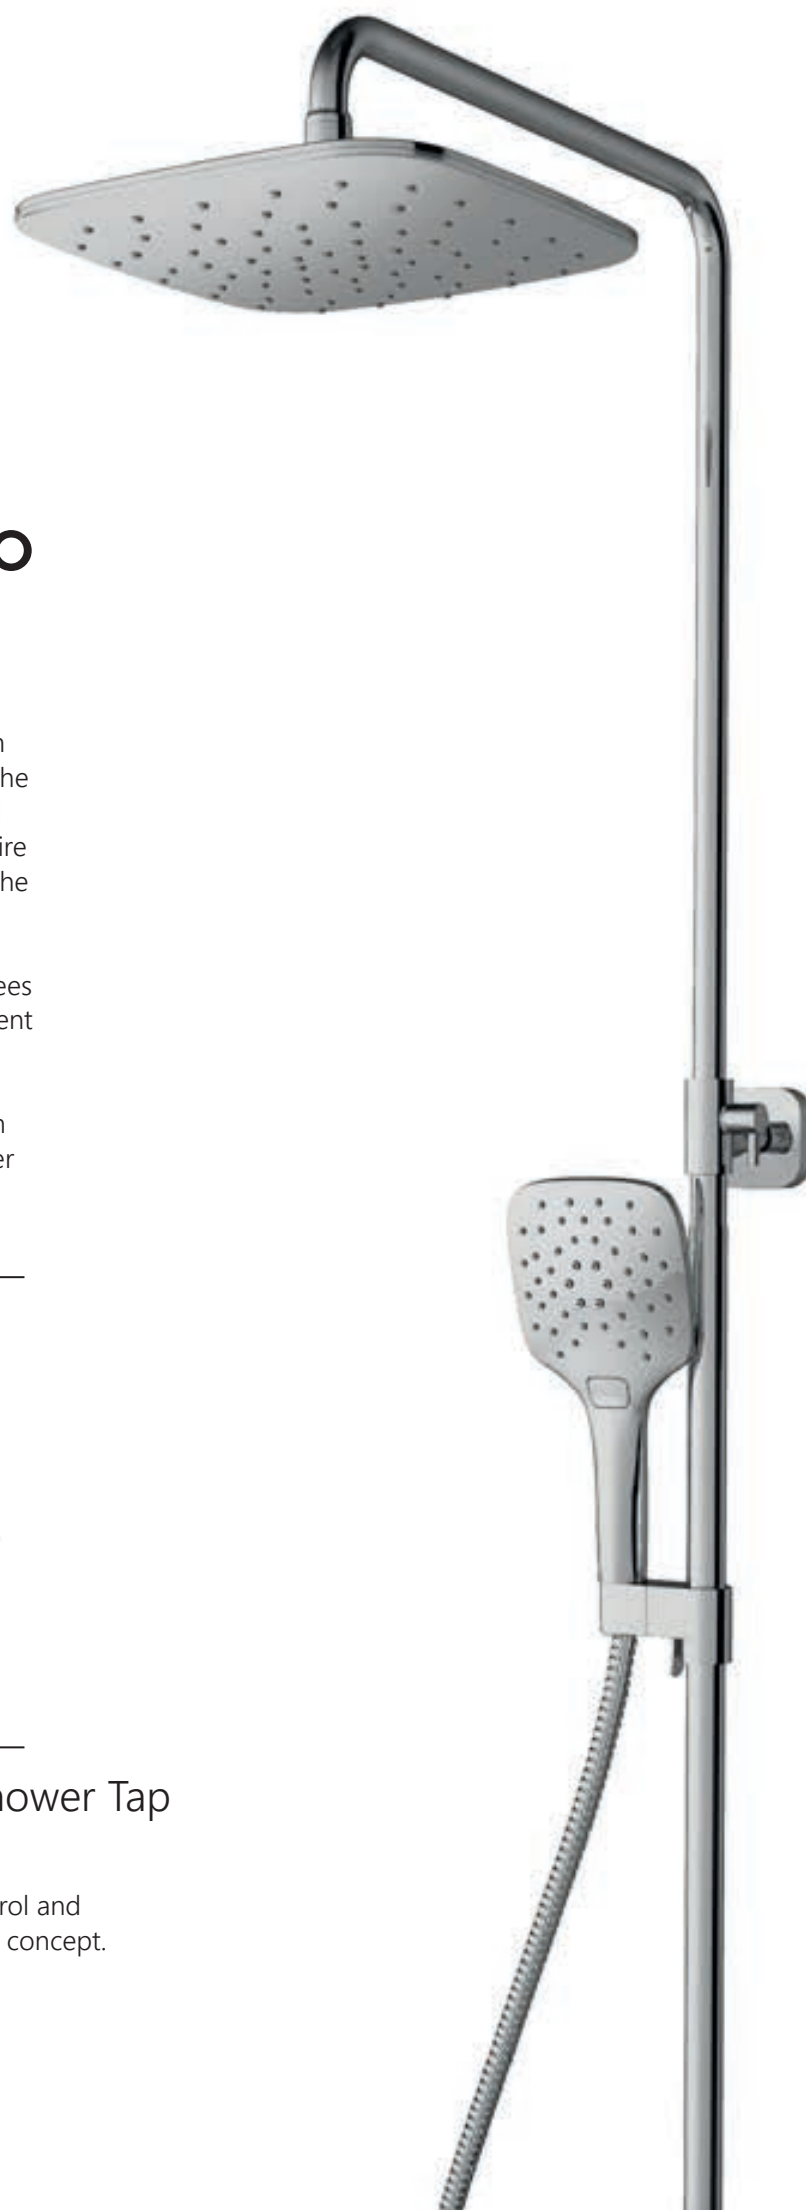

Precise manufacturing of the shower column guarantees smooth running and allows the shower head adjustment when showering.

User-friendly control thanks to a special sliding system allows you to move the hand-held shower head holder with one hand.

10° Wall-mounted Thermostatic Shower Tap

For safety and comfort while showering. Maintains constant water temperature, is easy to control and is in perfect aesthetic harmony with the 10° bathroom concept.

The body of the thermostatic tap, made of quality materials, and the fastest technology of mixing hot and cold water together create an indispensable component of bathrooms of the future. It will tame the element of water to ensure comfort and safety to the relaxing user.

Wall-mounted shower water taps

Clear marking

Eliminates confusion between hot and cold water.

Safety lock

Against unwanted change in water temperature to over 38° C.

Integrated diverter

The bath/shower diverter is integrated in the head for simplicity of control.

Wall-mounted bath water taps

Built-in taps

Jet Inox

Hydro-massage Panel

Jet Inox

This hydro-massage panel made of luxurious stainless steel is equipped with the latest new features. Three types of circumferentially-spaced jets, overhead shower and waterfall function will transform any use of a shower enclosure with the Jet Inox panel into an irreproducible moment. All this under supervision by a thermostatic tap for safe showering.

Jet Inox stainless steel hydro-massage panel, hand-held and overhead shower, waterfall massage, and thermostatic tap for an exceptional showering experience. Size 26 x 161 cm.

Hydro-massage Panel

Jet Glass

The delicate design of the Jet Glass panel stands in contrast to the intensity of the experience it provides. Eight tilting massage jets and a refreshing rain of drops from the large overhead shower, or a comfortably adjustable stream of water from the hand-held shower. The panel is equipped with a thermostatic tap.

Brilliant

Brilliant

Honed Perfection

Sophisticated design and robust chrome-plated hinges in a uniquely flat and rounded shape make the Brilliant shower enclosure the crown jewel of an exceptional bathroom.

„We spent a long time testing different solutions so that they follow the current trend of simplicity, but we were careful not to end up with a look which is too plain. By slight rounding of the corners, the Brilliant finally reached the ideal of friendly minimalism.“

KRYŠTOF NOSÁL, author, Nosal Design studio

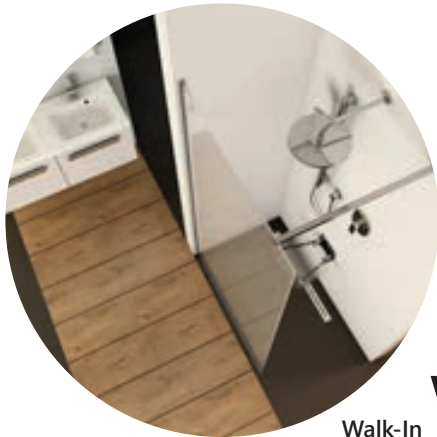

BSDPS model from the Brilliant series - shower doors and fixed screen with frontal entrance. The largest shower enclosure of this series in a wide range of sizes.
Size 90 x 120 cm.

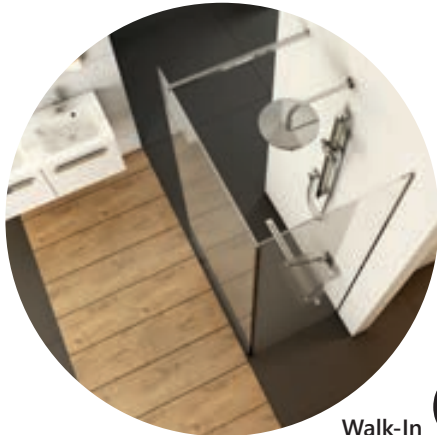

Walk-In

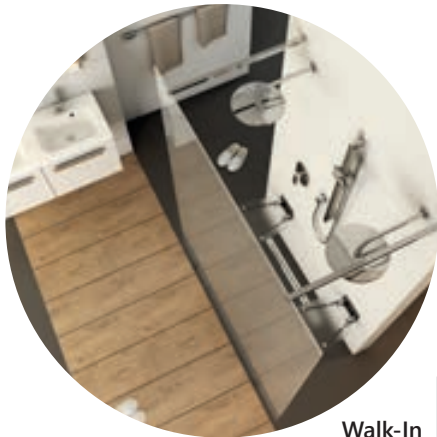

Walk-In Wall Shower Enclosure . Solid screen made of 8 mm-thick safety glass, width of up to 120cm and designer strut. Entrance from one side.

Walk-In Wall

Walk-In Corner

Walk-In Free

Walk-In

Customised Shower Enclosures

Do not limit yourselves by the size of shower enclosures, shower trays or the bathroom layout. Live your life and dictate your own conditions. Walk-In shower enclosures will adapt to your needs.

The smooth surfaces of robust safety glass combined with subtle glossy struts give the bathroom an airy and distinctive style.

NEW Walk-In

Walk-In Free shower enclosure with black details in the form of metal bars. A solid screen of 8 mm-thick safety glass, width of up to 160 cm, entrance from both sides, mounted on tiles or shower tray.

Life

doesn't need
to be a
compromise

Walk-In Black

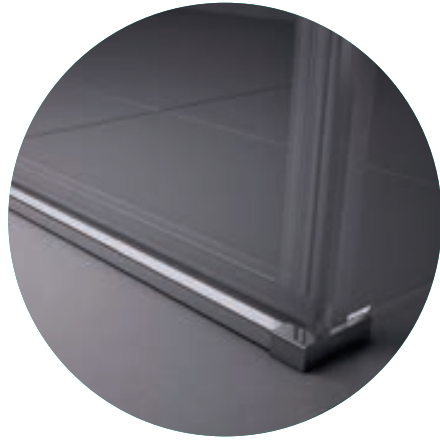

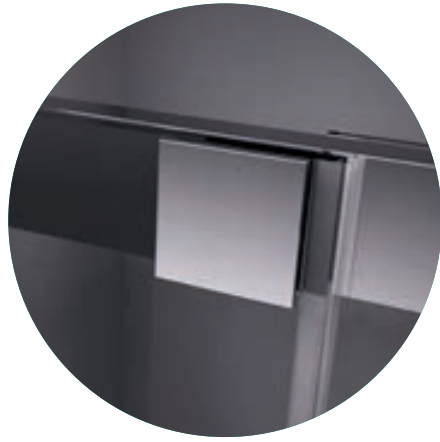

They will catch your eye with their differences

Where white colour is expected, black will catch your eye. Why choose predictability when there is sophistication?

Matrix

Matrix

Style which speaks for itself

The clean and straightforward design based on straight lines is well suited for all modern bathrooms. Does not draw attention to itself, yet remains naturally confident, and serves its purpose perfectly.

MSDPS model from the Matrix series - shower doors and fixed screen with entrance from the front. Size 120 x 90 cm.

Safety and Stability

Decide for yourself whether you would like to feel the touch of ceramic tiles while showering, improved in their utility by a quality stainless channel drain, or whether you want to enjoy the smooth compact surface of a shower tray.

Channel drains are best combined with Walk-In shower enclosures where they create the look of a visually unified floor.

Shower trays in turn provide a perfect combination of simple flat design with quality materials, making them durable, solid and easy to maintain.

Chrome Stainless Channel Drain

High-quality stainless steel, multiple size variants suitable for any shower enclosure and unobtrusive design that does not interfere with the look of the bathroom area.

Runway Stainless Channel Drain

Channel drain made of high-quality stainless steel to highlight the look of ceramic tiling.

Galaxy Pro and Galaxy Pro Flat Shower Trays

Cast marble trays of very low height and very high quality. Their number of size and shape variations provides an optimal solution for any type of shower enclosure.
